

Control for Coupon Redemption Prizes

Customers who are members of Player's Club can present and redeem coupons to Player's Club which will earn them offers and prizes as specified by contest rules.

To redeem a coupon, a player must appear, in person, at Player's Club during Player's Club's open hours to redeem coupons. Player MUST be present to claim prize. Individuals who have been excluded from the gaming facility (voluntarily or involuntarily) are not eligible to claim any prizes.

Prizes may be subject to a limit and are available while supplies last unless otherwise noted inside the promotion rules. Coupons that do not read "not valid with any other offer" [or similar phrasing to imply the coupon's validation] may be redeemed in conjunction with other coupons or offers. Management holds the right to invalidate offers at any time.

Player's Club will verify that person's valid identity and that the player is eligible to receive the prize.

If a player IS present, AND comes up to Player's Club within the eligible time, the following is done:

- 1. Enroll the player in the computer and have them sign their receipt.*
- 2. Player's Club Staff Member that gives prize will sign off on prize receipt.*
- 3. Player's Club Staff Member will give prize to Player*

Please Note: "Prize" as it appears in the heading may be defined as Free Play, Food Discounts, Merchandise or Hard Entries into Contests depending on the contest.
